

Application No.: 10/802,441

11

Docket No.: 58581

REMARKS

Claims 9, 10, 11, 22, 24, 26, 27, 29 and 30 have been amended to remove multiple dependencies, and claims 39-51 have been added. No new matter has been added. For instance, support for the new claims appears e.g. at page 83 first paragraph and the original claims of the application.

Applicants respectfully request reconsideration of the Restriction. In particular, it is believed that multiple groups as defined in the Office Action can be considered at this time without undue burden. For instance, it is believed that Groups III, XII and XIII can be considered together without undue burden. Consideration of multiple groups also will save Applicants considerable time and expense.

In any event, to provide a complete response, Applicant elect Group XIII, which includes claims 35 and 38-51, as that Group is defined in the Office Action.

Applicants note that the Office Action (page 3) states that claim 35 links Groups XII and XIII and upon allowance of claim 35 the restriction of the linked groups will be withdrawn.

For a species election, Applicants elect SEQ ID. No. 17. Claims that include that species include claims 35 and 38-51. Claim 42 specifically recites SEQ ID. No. 17.

Early consideration and allowance of the application are earnestly solicited.

Respectfully submitted,

By 

Peter F. Conless
